NATIONAL EGG MARKET AT-A-GLANCE

In Chicago, prices were sharply higher on all sizes. In the Northeast, prices were 1 cent higher on larger sizes and 2 cents higher on medium. Elsewhere, prices were 2 cents higher on medium, unchanged on the balance. The market tone was firm. Demand was moderate to very good. Medium eggs were about adequate while supplies of the larger sizes ranged close to tight. Offerings were held with confidence as sellers watched further market conditions. In the Midwest, breaking stock supplies were tight to non-existent, offerings in the East were about adequate for the fair demand. Light type fowl were generally sufficient for the light demand.

NORTH ATLANTIC In Philadelphia, prices were unchanged to 1 cent higher on the larger sizes and unchanged to 2 cents higher on mediums. In Boston and New England, prices remained unchanged. The market tone continued firm on white eggs, but steady on browns. Demand into all channels ranged moderate to good, best where features were in progress or planned for next week. Supplies were adequate to close. Breaking stock offerings were about adequate for the fair demand. Light type hens were generally sufficient for the mostly fair demand. Processing schedules for next week were reported as about normal.

NEW YORK Prices were 2 cents higher on medium and 1 cent higher on larger sizes. The market tone was firm entering the weekend. Demand was moderate to good, better where promotional activities were planned for the upcoming week. Supplies were sufficient on medium sizes, however heavier weights were in close balance for present needs.

MIDWEST Prices to producers in Iowa-Minnesota-Wisconsin were 4 cents higher for large, up 2 cents for medium, and unchanged for small. Prices in other reported areas were unchanged. Trade sentiment continues firm for all sizes. Retail demand mostly good to very good in areas with a large amount of feature activity. Food service movement was about moderate. Supplies were barely adequate to tight for all sizes. Central states nest run breaking stock prices and checks and undergrades ranged higher. Offerings were tight to non-existent with most breakers attempting to get through the Easter season on regular commitments and company owned production. Floor stocks closely balanced to adequate with many breakers willing to reduce schedules instead of purchasing heavy nest runs at increasingly higher values. Schedules mixed for next week. Trade sentiment steady to fully steady.

CHICAGO Prices for extra large and large advanced 4 cents, medium prices raised 2 cents. The market tone was steady to firm. Retail and food service demand moderate to good and best where specials are planned. Supplies on larger sizes closely balanced and held with confidence.

SOUTHERN Prices were 2 cents higher for medium and unchanged on the balance. The market tone was firm entering the weekend. Asking prices for next week were trending higher to sharply higher on all sizes. Demand continued moderate to good. Supplies of medium were about adequate for current needs. Larger sizes were close to tight and remain confidently held. Breaking stock demand was fair and unaggressive for limited, but about adequate offerings. Light type hens were generally sufficient for the fair demand.

WEST COAST Prices unchanged. The market tone was very firm with asking prices for next week 8 cents higher on jumbo, 8-9 cents higher on extra large, 10 cents higher on large, and 4 cents higher on medium. Retailer demand seasonally good. Offerings light.

Effective Monday, March 18, a price recommended by the California Egg Marketing Association (CEMA) and other marketers in the state will replace the California Invoice prices. These new prices will reflect the recommended price for negotiated sales of USDA Grade AA and Grade AA eggs in cartons, cents per dozen. The price will not reflect any discounts or other contract terms. The change is being made to more fully involve CEMA and the other marketers in California in setting a benchmark price for eggs in the state.

NATIONAL LIQUID Pasteurized salt yolk and pasteurized whites were too few to report. Trade sentiment fully steady to firm for whole egg, mostly steady for whites and unsettled on yolk. Spot offerings of all liquid products were tight as breakers refuse outside heavy nest runs at rising values. Asking prices for next week are sharply higher for whole egg and yolk. Demand was brisk for whole egg and good for the balance of products. Nest run breaking stock prices were higher when compared with last week's reported prices. Prices paid cents per lb., FOB Plant to 10:00AM Friday 15 March, 2002 non-pasteurized trucklot. For delivery within 14 days.

EASTERN REGION FROZEN Mostly prices were higher on whole, unchanged to higher on whites, and unchanged on yolks when compared to previous week's trading. Trade sentiment was steady to fully steady. Demand remained light for trucklot volumes, and inquiry for small volumes was light to moderate. Floor stocks were adequate. Breaking stock supplies ranged barely adequate to tight, as plants competed with grading facilities preparing for upcoming Easter needs. Liquid and frozen eggs (ingredients included) processed under federal inspection in the Eastern region for the week ending March 09, 2002 were 41% less than the previous week and 36% lower than the same week last year.

CENTRAL REGION FROZEN Prices ranged unchanged for whites and sugar yolk, with frozen whole egg unchanged to 1 cent higher, and salt yolk irregular when compared to last week's reported prices. Trade sentiment steady to mostly fully steady for all products with asking prices higher for next week as raw costs continue to climb. Demand was light to mostly moderate and many buyers were in more of a price comparison mode than an actual buying mode. Breaking stock supplies tight to adequate with prices higher when compared to last week's reported prices.

NATIONAL DRIED Mostly prices were unchanged to higher on yolks and blends, higher on whole, but lower on albumen when compared to a week earlier. Trading and demand remained light, with buyers watching further market developments. Supplies were adequate or available. The undertone was unsettled on albumen and generally steady on the balance of items. Dried eggs processed under federal inspection for the week ending March 09, 2002 were 28% lower than the previous week and 25% less than the same week last year. The overall total dried egg year to date change was 14% higher than a year earlier.
